It is certified that error appears in the above-identified patent and that said Letters Patent is hereby corrected as shown below:

In column 4, line 3-8, delete "The flight guidance computer 210 directs the operation of the control systems 202 either automatically or by providing guidance cues to the operator who then manually controls the aircraft 201. Aspects of the operator's interactions with the system 200 are described in greater detail below with reference to FIGS. 3-6." and insert the same on line 2 after "speed." as the continuation of the same paragraph.

In column 5, line 53-64, delete "The display medium 230 can display other information when the operator activates the appropriate menu select element 550b. The menu select elements 550b displayed at the display medium 230 can operate in a manner generally similar to that of the line select elements 550a, and can be provided in lieu of the hardware switches available on existing systems. In still further embodiments, other input devices can also be presented at the display medium 230. For example, the alphanumeric keys of the keyboard 321 can be presented as operator activatable elements, either at the display medium 230 shown in FIG. 5 or, if space is not available there, at another display medium." and insert the same on Line 52 after "points)." as the continuation of the same paragraph.
